DETAILED ACTION

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

<i>Coalescing Media Species</i>	<i>Material</i>
1	Polyurethane
2	Polyester
3	Polystyrene
4	Polypropylene
5	Polyethylene

<i>Operating Mode Species</i>	<i>Mode</i>
C	Continuous
D	Discontinuous

<i>Configuration Species</i>	<i>Corresponding Drawing Figure</i>
1	1
2	2

<i>Species</i>	<i>State of Porous Mass</i>
1	Compressed
2	Non-Compressed

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a). Currently, it is unclear which, if any of the claims are generic to each of the species set forth above

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features, as each of species set forth above is mutually exclusive of the others.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Drawings

The drawings are objected to because **Figures 3 and 4 are of poor quality. Additionally, Figure 4 appears to represent the prior art, and will require a label as such.** Corrected drawing sheets in compliance with 37 CFR 1.121(d) **will be required in the next Office action**. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may

Art Unit: 1797

be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

It is requested that Applicant reveal the publication date of the FAQ document that was downloaded from www.Separatech.com, and is now made of record.

Oath/Declaration

The Oath submitted on **June 8, 2006** does not make a priority claim, and the wrong box appears to have been checked on the first page. A new Oath will be required in the future. If a claim for priority is elsewhere, it is requested that Applicant point it out.
